

Salmon in Schools and The East Harrison SSE -- Looking Back and Looking Forward

Images: The Bush School Fifth Graders on June 9, 2025

Last year, we celebrated the East Harrison Shoreline Street End being the release site for The Bush School's 5th grade which participates in the Washington Department of Fish and Wildlife's "[Salmon in the Schools](#)," program which "...which uses regional salmon as a gateway to curiosity, wonder, and scientific investigation while connecting students with local watersheds." We've learned that 2026 will be the fifth year of the program at The Bush School.

HOORAY for these curious students learning about human-environment relationships and local ecology – and to their teachers! We look forward to the salmon release later this year.
